Keeper Mini

Universal Holder for Mobile Phones and the iPod

Keeper Mini is the practical holder system for mobile phones and iPods. It can be easily mounted on the dashboard, the windshield surface or the middle console. Your mobile phone or iPod can be flexibly turned in all directions with the gooseneck and ball-point head (incl. receptacle and vacuum clip).
The receptacle mount is suitable for all popular mobile phones and iPods and is easily fixed to the underside of the gooseneck or the pedestal. The sophisticated snap-in technology can be used with any DICOTA pedestal or gooseneck combined with the receptacle mount. This offers the mobile customer a wide variety of choices on how to use the Keeper Mini. The gooseneck can be placed on any smooth surface using the vacuum clip included or with the screw-on/ glue-on pedestal! The various mounting systems make the perfect positioning of the Keeper Mini in any automobile possible!

Receptacle mount with self-locking grips and adjustable synthetic feet. flexible gooseneck with integrated ball-point head incl. suction mount and vacuum clip. self-adhesive or screw-on pedestal for receptacle mount and gooseneck.
